- **9/27-** Softball and Boys Basketball Home vs. Vista Del Sur, 4:35pm

Booster Club

Booster club will be sponsoring an ice cream social on September 14 from 5:00-7:00pm. We invite all Cheatham families to come in and enjoy some ice cream and play some games in the courtyard area! I'd also like to invite you all to our next booster club meeting on Tuesday, September 25 at 3:00pm in the library

Jackets and Hoodies

As it starts to get cooler in the morning, more of our students will want to wear hoodies and sweatshirts to school. As a reminder, our dress code for these items are: *"...students may wear all navy, white, gray, or light blue sweatshirts or sweaters in class. Sweatshirts and sweaters must be worn over a uniform shirt."* Please help us enforce this by sending students to school with items that follow this dress code. We have extra sweatshirts in the health office for students who need them.

Perfect Attendance/No Tardy Homeroom Incentive

Thank you to all of you for your efforts to decrease absences and tardies for all of our students. Last year, we instituted an incentive for homerooms who accumulate 5 days of perfect attendance and no tardies. I'm very pleased to see that every day we are having multiple homerooms across campus with all students present and on time. Our current leaders are Mr. Schwarz's homeroom with 8 days, Mr. Gabaldon's homeroom with 6 days, and Mr. Shepard's homeroom with 5 days. Do you want to see your homeroom featured next month? Work to have perfect attendance and no tardies every day!

Avid Corner

As an AVID school, we practice WICOR strategies. WICOR stands for Writing, Inquiry, Collaboration, Organization, and Reading! The "Inquiry" part of WICOR ensures that students have access to rigorous curriculum, including opportunities for our 7th and 8th grade students to earn high school credit in Algebra and Geometry. Currently we have 15 8th grade students who have completed High School Algebra and are in the process of earning a Geometry credit. Additionally, we have 74 7th and 8th grade students in the process of earning Algebra! Providing this opportunity allows our students to be on track to access higher level math in High School and be college prepared.
